

OFTEN,
THE DIFFERENCE
BETWEEN SUCCESS AND
FAILURE,
OFTEN BOILS DOWN TO
HAVING THE RIGHT
PARTNER.

People + Technology + Insights = Business Empowerment

*Turn the page to know how we can help your business bridge
the gap between 'no' and 'go'.*

You have a great idea. Congratulations.
Do you have the right team
and technology to execute it?

Try us.

Deegit

People + Technology + Insights = Business Empowerment

Data Warehousing / Business Intelligence

Have you mined your data yet?

Today everybody loves Big Data. But not everybody knows how to leverage it.

We do.

And we'll guide you through it using:

Big Data Planning,
Solutions & Implementation

DW / BI

Data Governance

Data Integration

Leverage our specialization in BFSI, Healthcare and ETMS to play your cards right:

- **BFSI:** Scale up your capabilities without incurring extra cost through Business Process Outsourcing. Offerings include:

 - Technology Selection & Implementation
 - Financial Risk Management
- **Healthcare:** Fortify and simplify your healthcare delivery machinery through our IT enabled healthcare management solutions and services which include:
 - Operations Advisory
 - Revenue Cycle Management Services
 - Improvement Initiatives
 - Financing Alternatives
 - Compliance Design and Monitoring
- **ETMS:** Control costs even while accessing our specialized resources and by optimizing existing setup and investments through:
 - Call Centre Outsourcing
 - Finance and Accounting Outsourcing
 - Billing Operations Outsourcing

Deegit Hire™

Hiring. Simplified.

The one and only end to end Contract Hiring process in the Staffing industry. You just send in your requisition. We do the rest. Focus on your business backed by the Deegit Guarantee and welcome your new Consultants.

Strengthen your organization internally through top notch talent

Two decades, hundreds of clients, thousands of consultants. We've been there and done it all. To build a great organization you need great talent. And we can bring it to you through:

- Staff Augmentation & Consulting
 - Contract Hiring
 - Full time & Leadership Hiring
 - DeegitHire – Hiring. Simplified.
- Contingent Workforce Solution & Management

At Deegit, we marry Technology with Professional Services so that you get the best of both worlds in one place. Read on to know how exactly we do so.

The war for talent just got nastier. Are you prepared?

Deegit Professional Services

A strong team is a prerequisite for business success. However, if you've ever felt that creating a team is often much more difficult than running the core business itself, you are not alone. Attrition is not only a financial drain on company resources, it compromises your ability to achieve your target too. Maintaining a talent pipeline is a challenging task: something that takes your focus away from your core business. Is there any alternative that not only delivers to you the right people for the right job at the right time, but manages the entire recruitment process altogether?

Sure. That's what we do at Deegit.

Staff Augmentation & Consulting

Access Deegit's 'talent cloud' and ramp up your productivity and skills set on demand.

- **Contract Hire** – Minimize the time spent on shortlisting Candidates by dealing only with verified profiles. Deegit's turnaround is possibly the quickest in the industry. From sourcing a single Contractor to multiple hires, we've got you covered.
- **Full Time & Leadership Hiring** – While skills are critical, hiring for the long term is also about compatibility. At Deegit, our two-decade-experience has given us an uncanny capability to 'read' a Candidate. We understand where a resume ends and where disposition begins.
- **DeegitHire** – Hiring. Simplified. Want a star-team to hit the ground running? Try DeegitHire. Talk to us today to know how we can reduce your costs and yet guarantee talent that performs.

RedFox Search

Simplify the search for leadership and specialized mid-level positions through Deegit's specialized retained search offering - RedFox Search.

RedFox Search specializes in contacting and recruiting top level active and passive candidates across industries including Capital Markets, Banking, Insurance, Energy and Hi-Tech.

Dependable, efficient and fast, RedFox Search boasts of a 100% fill ratio till date on retained searches.

Contingent Workforce Solutions & Management

The rise in labor costs and the demand for a workforce that can quickly adapt to dynamic market conditions has made Contingent Hiring a favorite of Hiring Managers.

While a Contingent Workforce enables organizations to hire experts, give their business the much needed skill-upgrade, and side-step the long term costs, sourcing appropriate talent remains a tricky business.

But not if you try Deegit.

We can tell you what's right with your contingent workforce model and what could use a little tweak. All in all, we assure you the delivery of the benefits that you expect from a Contingent Workforce.

The Deegit Advantage:

Scope to refocus on core activities.

Assured value for money.

The Deegit Guarantee – If you are not satisfied within two weeks, we do not bill.
