

IT talent delivered at the speed of your business.

Deegit delivers highly skilled technical talent and workforce solutions to a cross-section of businesses and industries worldwide. With access to more than 2 million professionals in the United States and India, we've earned a reputation for delivering authentic, diverse and highly skilled tech professionals to fill permanent and project-specific positions within as little as 48 hours. We provide:

1. Superior talent match and rigorous vetting
2. Candidate placement in a cross-section of industries
3. Valued-added staffing solutions
4. Uncommonly diverse talent pool
5. Channel partners

Superior talent match and rigorous vetting

Every candidate undergoes an exhaustive screening process to mitigate the risk of a costly, fraudulent hire. Our lead recruiters are tech-savvy and adept at matching talent to the desired skill set, project specs – even the corporate culture. With Deegit, you get a dedicated team of specialists who will work closely with you to anticipate workforce needs and assess talent and IT requirements as your business needs change and grow, offering the following approaches:

- Large-scale and rapid-response contract staffing
- Permanent and leadership staffing
- SOW & professional services (big data, ERP, security)
- Recruitment Process Outsourcing to ensure talent gaps do not affect business
- Multilayered screening process for cultural fit
- Onboarding
- Onsite assessments, salary insight
- End-to-end candidate tracking
- Two-week guarantee
- Dual-shore delivery model
- 500+ consultants worldwide

In 2016, Deegit placed candidates in a cross-section of industries:

- Technology
- Financial/Insurance
- Life sciences
- Energy
- Transportation
- Retail/CG
- Automotive
- Government services
- Utilities
- Telecom
- Industrial/Mfg.

Value-added staffing solutions

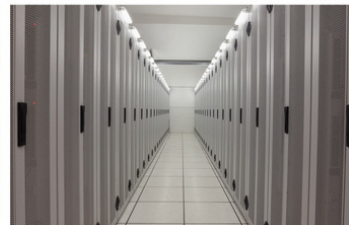

Our dual-shore delivery model spanning India and the United States enables us to deploy dedicated recruiting teams who focus exclusively on a client's needs. From receiving a requisition to welcoming a candidate, only a dedicated Deegit team can understand the requirements, unique culture and special characteristics that a hiring manager is looking for—but never takes the time to document in a job spec. Our ability to configure these teams for clients allows us to improve quality and responsiveness.

An uncommonly diverse talent pool

A diverse workforce strengthens your business. Deegit is a Minority-Owned Enterprise (MBE) certified by the Chicago Minority Supplier Development Council, an affiliate of the National Minority Supplier Development Council. We work with minority- and women-owned businesses and suppliers and have earned a successful track record of accessing top talent that meets customers' diversity objectives.
